

C-PReP
COMMUNITY - PORT RESILIENCY PROGRAM

An initiative for a disaster mitigation network of airports

Throughout Central America and the Caribbean

WWW.PORTRESILIENCY.ORG

OVERVIEW

Damaged airports in the Latin American/Caribbean region have a tremendous effect on the local community and the whole country, crippling the efforts to get in badly-needed goods and aid. C-PReP saves lives during times of disaster by preparing airports and communities to become more resilient before disasters strike, thus accelerating the response time and delivery of humanitarian aid. C-PReP includes:

- Pre-assessment of emergency and resiliency plans.
- Initial on-site screening & assessment.
- Targeted capacity building.
- Incorporation of best practices & guide to address gaps.
- Development of airport-specific implementation plan.
- Review of stakeholders and mutual aid relationships.
- Disaster readiness drill with stakeholders & essential personnel.

Program Experience:

- ✓ Dominican Republic (2013)
- ✓ USTDA Latin America and Caribbean Airport Resiliency Workshop (2014)
- ✓ Two airports Costa Rica (2015)
- ✓ Merida, Yucatan, Mexico (2015)
- ✓ Three airports Jamaica (2016)
- ✓ Six airports ASUR, Mexico (2017)
- ✓ Merida, Mexico (2017)
- ✓ St. Vincent (2017)
- ✓ Antigua and Barbuda (2018)
- ✓ St. Lucia (2018)
- ✓ Dominica (2018)

Americas Relief Team (ART) is an initiative of Outreach Aid to the Americas (OAA) to support the LAC and Caribbean region through times of crisis and disasters, providing disaster preparedness, response and recovery including logistics assistance and coordination of humanitarian aid and relief.
